# PLANET PLANS

## MERCURY

Our basic package consisting of The DSC 1616, Keypad, PIR and Door Contact and siren. Will take up to six zones and is expandable up to 16 zones.

## VENUS

Another basic package perfect for home and small business using the DSC 1832 Panel, Keypad, three PIRS and 2 Door Contacts. This system is future expandable to 32 zones.

\*Both these systems are upgrade-able and allow for multiple keypads and addition of wireless zones as well as multiple partitions.

## EARTH

The same package as the venus with the addition of high low temperature, smoke detection, CO2 and water bugs.

## MARS

Our wireless package utilizing the DSc 9045 and 9047. This alarm system also features instantaneous, two-way audio alarm communication with your monitoring station through built-in, high-quality speakers and microphones.

## JUPITER

Our executive home package using the most versatile and eye pleasing systems available - Paradox Digiplex and EVO systems.

## SATURN

Paradox EVO for the Executive home or business with the addition of card access doors which can be integrated right off of the intrusion system.

## URANUS

Our home Surveillance system consisting of 1 National DVR and 4 cameras.

## NEPTUNE

Our business surveillance system consisting of 1 National 9 port DVR and 9 High resolution Cameras.

## PLUTO

Also for business this plan uses the Centuar card access system to secure an area.

**MONITORING - \$22.95 per month on a minimum one year term.**

\*All system pricing is subject to the 1,2 or 3 year monitoring agreement plans. \*See Dealer for system pricing.
